Subject: Drilling to begin...

Good Day Irene:

I just received word that ConformaTECH and their driller are planning to do the drilling beginning on Wednesday the 11th of November. They are planning on having a drill rig and a pickup onsite starting at 8 AM. They plan to be finished on November 11th by 4 PM. The plan is to complete all the drilling activities in one day.

Please let me know if you have any questions.
Thanks.
