

Linda Jaworski was born and raised in Chicago, Illinois, where she began a career as a registered nurse, specializing in pediatric and neonatal care. She eventually moved over into labor and delivery nursing, and when she and her family decided to leave the icy winters of the Windy City behind for the sunnier climes of California, she transitioned into a managerial role at a busy Birth Center for a mid-sized community hospital in North County, San Diego. After helping to bring thousands of babies into the world, she retired from nursing to finish raising four children through their teenage years, and to support her husband, a Navy physician, through his own retirement in 2017. One son studied business at the University of Arizona, and she and her husband became quite enamored of Tucson during his college stay, ultimately deciding to move here when all of their kids had left the nest.

Over the years, she actively participated in building the homes her family lived in, and subsequently educated herself in the principles of interior and landscape design. This led to her current design consulting business, where she loves to help people transform their homes into dreamy living spaces. She joined the Foothills Clusters HOA in 2019, as the Chair of the Architectural Control Committee, with a desire to help enhance the beautiful community we call home.

She and her husband, Jim (and their old black Lab, Dallas) very much enjoy walking the cul-de-sacs of the Clusters, meeting as many of our neighbors as they can. It is her absolute privilege to hear resident's thoughts and concerns and to work with them to realize their goals.
