Proposed Start Date _____ Anticipated Completion Date _____

Brief Description of Project _____

Attach details for your solar panel installation project. This includes, but is not limited to, solar panel placement, height and type of solar panels, data sheets for your equipment, design information, conduit/electrical information and Pima County Building Permit. Your application can be submitted without a building permit but it cannot be approved until the county permit is provided to the ACC.

Process Information: Upon receipt of your complete application with all necessary supporting documents, the ACC will review the application and schedule a site visit. The committee will approve or disapprove your complete application within 30 days of receipt. If there are deficiencies in the application or more time is needed to study it, the committee can disapprove the application but ask the homeowner to resubmit the application when all information is available to make a decision.
